Biometric recognition has attracted much attention from academia, industries and government in recent years. Chinese Conference on Biometric Recognition has been successfully held in Beijing, Hangzhou, Xi’an, Guangzhou and Jinan for eight times since 2000. The 9th Chinese Conference on Biometric Recognition (CCBR 2014) will be held in Shenyang on November 7-9, 2014. The purpose is to promote exchange of novel ideas on biometrics. All accepted papers will be included in the conference proceedings published by Springer (LNCS), and indexed by EI and ISTP. The conference also held a national biological feature recognition algorithm competition, scholars at home and abroad are welcome to participate in this activity.

Topics of interest include but are not limited to:
Biometrics Acquisition Device
Human Computer Interaction in Biometric Recognition
Biometric Quality Evaluation
Biometric Signal Quality Enhancement
Affective Computing Based on Biometrics
Face Detection, Recognition and Tracking
Fingerprint Recognition
Iris Recognition
Speaker Recognition
Writing(Signature) Recognition
Gait Recognition
Palmprint Recognition
Finger Vein Recognition
Other Biometric recognition and Processing
Multi-biometrics and information fusion
Construction and composition of Biometric Database
Application and System of Biometrics
Other related topics

Important Dates
Main Conference: 2014.11.07——2014.11.09
Paper Submission Date: 2014.03.01——2013.06.20
Recruitment notice date: 2014.07.30

Advisors
Tieniu Tan, CASIA, China
Jie Tian, CASIA, China
Jingyu Yang, Nanjing University of Science & Technology, China
Xilin Chen, ICT, CAS, China
Jianhuang Lai, Sun Yat-sen University, China

General Chair
Jie Zhou, Tsinghua University, China
Yunhong Wang, Beijing University of Aeronautics and Astronautics
Weiqi Yuan, Shenyang University of Technology, China

Program Chairs
Zhenan Sun, CASIA, China
Shiguang Shan, ICT, CAS, China
Haifeng Sang, Shenyang University of Technology, China

Organizing Committee Chair
Xia YU, Shenyang University of Technology, China

Hosted by
Shenyang University of Technology, China
Institute of Automation, Chinese Academy of Sciences
Chinese Association for Artificial Intelligence

Organized by
Shenyang University of Technology
